

Jonas Ventimiglia

jventimiglia@ifh.rutgers.edu

RESEARCH & TEACHING PROFILE

Health services and quantitative methods scholar with over seven years of experience leading complex analytic initiatives using large-scale healthcare datasets. Provide scientific contributions to international research collaborations and author of 24 peer-reviewed publications. Experienced leader with a track record of supervising and mentoring 7+ staff and guiding multidisciplinary project teams.

EDUCATION

- MS** Quantitative Methodology, December 2020
University of Maryland, College Park
Thesis: *The Impact of Missing Data on Latent Space Models*
- BS** Psychology, December 2019
University of Maryland, College Park
Graduated with high honors
Thesis: *Children Consider Latency When Evaluating Others*

ACADEMIC & PROFESSIONAL APPOINTMENTS

Data Director, Policy & Analytics Center

- A.J. Drexel Autism Institute | Philadelphia, PA 2023 - Present
- Leads large-scale analyses of Medicare and Medicaid administrative claims datasets to evaluate healthcare utilization, outcomes, and policy impact.
 - Supervises research personnel and trainees, providing methodological guidance in causal inference, statistical modeling, and reproducible research practices.
 - Establishes streamlined data governance and workflow protocols that improve analytic turnaround time and supports multi-investigator grant initiatives.
 - Communicates research findings through high-impact visualizations, manuscripts, and presentations to academic, clinical, and policy audiences.

Data Analyst

- A.J. Drexel Autism Institute | Philadelphia, PA 2020 - 2023
- Applied advanced network analysis methods to examine social integration and outcome trajectories among autistic adults, contributing to translational and community-engaged research initiatives.
 - Designed and implemented automated data acquisition and analytic pipelines using R and SQL to enhance reproducibility, scalability, and methodological rigor.
 - Employed regression, multi-level, and latent space modeling to evaluate intervention effectiveness and complex relational dynamics.
 - Produced statistically rigorous reports and dissemination materials tailored for community stakeholders, policymakers, and interdisciplinary research partners.

Data Analyst

- Torch Insight | Salt Lake City, UT 2019 - 2020
- Contributed to the design and implementation of relational data architectures in SQL to support large-scale healthcare research initiatives.
 - Developed custom R functions and statistical models to detect anomalies and enhance data quality within complex administrative datasets.

- Utilized predictive modeling techniques to evaluate and forecast healthcare system trends, contributing to research insights and policy discussions.
- Strengthened analytic infrastructure by integrating scalable data validation and modeling workflows to improve research efficiency and reproducibility.

TECHNICAL SKILLS & CERTIFICATION

Programming/Statistical Tools: R, SAS, Python, SQL, SPSS

Data Visualization/Dashboards: R Shiny, Tableau

Certification: 2023 Data Leadership, Massachusetts Institute of Technology

TEACHING EXPERIENCE

University of Maryland, College Park

Teaching Assistant

Quantitative Research Methods (Graduate)

Quantitative Research Methods I (Graduate)

General Linear Models (Graduate)

Statistical Methods in Psychology (Undergraduate)

Course Content Creation

Quantitative Research Methods (Graduate)
